

Enterprise and Solution Architecture (ESA) training

Prices and arrangements for *Private on-line training without BCS exams*

We are confident our ESA courses are the best of their kind; click [here](#) for some feedback. To enquire about *on-line* (Zoom) ESA training read below and/or email [this address](#). Click [here](#) if you want details of *in-class* training, dates and prices.

What is the on-line course structure?

This course (without BCS exams) runs over 4 days (2 days one week and 2 days the next).

		Elements
Week 1	Day 1	Architecture and Architects. Context and Motivation. Methodology.
	Day 2	Business Architecture. Data Architecture. Software Architecture
Week 2	Day 3	Applications Architecture. Non-Functional Qualities. Deployment.
	Day 4	Migration Path. Business Case. Agile Development. Informal exam.

Prices vary, depending primarily on the number of delegates.
The course finishes with an informal examination based on the case study.

What should I read before the course?

On receiving joining instructions: read this article on enterprise and solution architecture roles. <https://www.linkedin.com/pulse/enterprise-solution-architect-roles-things-know-graham-berrisford>
Also, read the case study and note 5 issues/risks you (as the solution architect) are worried about.

Where do I find methods and materials used on the course?

Go to <http://avancier.website> > Avancier Methods.

On the following pages, documents marked * are used in ESA training courses.

- AM process
- AM products and techniques
- AM architecture reference model
