Clarify the NFRs (AM level 2)

Clarify the NFRS (AM level 3)

1. Set target measures with flexibility
2. Assess business & IT readiness
3. Assess non-functional risks

Detailed in methods & [training](#)

Set target measures with flexibility

Define measures that can be tested during development and operation.

- Performance (timings and volumes of business done)
- Availability (derived from Reliability and Recoverability)
- Integrity
- Security
- Scalability
- Serviceability
- Usability
- Maintainability
- Portability
- Interoperability
- Extensibility

Detailed in methods & training

- ▶ AM for SA includes distinct guidance on
 - *Manage readiness and risk*

- ▶ Identify factors that must be in place for the business and IT functions to succeed in using the results of architecture definition.

- ▶ If need be, formalise this in the form of a Business & IT readiness survey.

Assess non-functional risks

- ▶ AM for SA includes distinct guidance on
 - *Manage readiness and risk*

- ▶ Complete a RAID catalogue.

- ▶ Be sure to include all risks arising from the preceding analysis of NFRs and business and IT readiness.

Clarify the NFRs (AM level 2)
